

King's Schools Taunton Limited

Gender pay gap report

2019/20

Supporting statement

King's is an equal opportunities employer who is committed to ensuring that all staff receive equal pay for equal work regardless of gender, ethnicity, disability or other unique characteristic. Gender pay gap analysis is an important tool which allows us to continually assess if there are any areas for improvement.

We are pleased to see that that mean gender pay gap has decreased but note this and other areas remain a work in progress. As boarding schools, we seem to have a relatively high proportion of women in support roles who are paid at lower rates than our teaching staff and this has the effect of creating a male to female pay gap in the statistics. The recent decision to increase our minimum wage to the National Living Wage Foundations rate as at September each Year has been a positive and warmly received move.

We have a good representation of men and women in management positions across our schools and are confident that women and men are paid equally for doing equivalent jobs. Our recruitment process is unbiased and transparent; we recruit the right people for the right job, regardless of gender. The schools are committed to ensuring women and men are given equal opportunities to progress into senior roles to provide the very best staff for the children. We consistently aim to ensure that King's Schools remains a fair place to work and that we pass on this ethos to our pupils.

I confirm that the information published in this report is, to the best of my ability, accurate:
